Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

K 345	Continued From page 1 9.6.1.3, 9.6.1.5, NFPA 70, NFPA 72 This REQUIREMENT is not met as evidenced by: Based on observation and interview on 6/28/22, it was determined that the facility failed to ensure that their building's fire alarm system was maintained in accordance with the requirements of NFPA 70 and 72. This deficient practice had the potential to affect all residents in the facility and was evidenced by the findings noted below: On 6/28/22 at approximately 9:00 AM, in the presence of the facility's Administrator and the Regional Plant Operations Director, the surveyor observed that the fire alarm annunciator panel indicated, "Trouble in System." The surveyor observed that the amber trouble light was activated in 2 of 2 panels (the main entrance panel and floor 2 panel outside the nurses station). The annunciator panel indicated: Acknowledged Trouble- Battery Trouble The prior facility's name was indicated on the panel as [prior facility name redacted] and indicated: "time 01:22:42A Monday May 30, 2022 TROUBLE: 003. " The facility provided a document from the facility's fire alarm vendor: which included, " We are aware of the trouble on the fire alarm system. The trouble will require the installer of the panel to be present for repair. We are working to resolve this as soon as possible. The system is currently functioning as it should." This document was signed and dated with today's date of June 28,	K 345	1) On 6/30/2022 our vendor came to the facility to remove the “trouble in system” alert. It was cleared on both annunciator panels, the main entrance and the 2nd floor. 2) All residents have the potential to be affected by this deficient practice. 3) The maintenance director and administrator were in-serviced on the regulation of keeping a fire alarm system in compliance with the requirements of recording system acceptance, maintenance, and testing to be readily available. 4) The maintenance director or designee will check the fire annunciator panel weekly at both locations to ensure that system is “not in trouble.” Audits will take place weekly x 2 beginning 6/28/22 and monthly x 3 months. Results of the audit will be reviewed at the quarterly QAPI meeting.
